Musical Terms

Beat/ Pulse	The steady pulse that keeps going through a piece of music like a clock.
Rhythm	Patterns of long and short sounds used in music.
Tempo	How fast or slow the music is. The tempo can change during a piece of music.
Dynamics	How loud or quiet music sounds. Dynamics can change during a piece of music.
Texture	Sections where there are fewer performers and sections where there are more performers.
Pitch	How high or low a note sounds.

The Vegetable Orchestra

Take a look at www.vegetableorchestra.org to see a group of musicians who make their own instruments out of vegetables and then give a concert on them. Afterwards they make a soup out of the vegetables they have used! How clever!

If you made an instrument, what family would it belong to?

Upload your vegetable instruments to Seesaw!
